RAFFLE TICKETS AVAILABLE – DRAWN **SUNDAY 2ND NOVEMBER AT 3PM**

Gelantipy Landcare - Plant Sale

will be on again in the hall

Some helpful information about ROSES

Hybrid Tea or Large Flowered Rose—This is the rose with, in most cases, one bloom on a long stem. The elegant, slim bud opens to a neat large, beautifully shaped bloom. Some of the best known in this class are Blue Moon, Peace, Papa Meiland. They may or may not have perfume.

Floribunda or Cluster Flowered Rose—These are the ones with several blooms to a stem; the flowers are usually a little smaller than the Hybrid Tea. Here you will find double, semi double and almost single such as “Blueberry Hill”. The world’s most favourite Floribunda is said to be Iceberg.

Miniature Roses—These are miniature versions of the above; they are usually about a third the size of the regular roses. Their bloom is usually no more than 5 cm across. Ground cover roses are not miniature roses.

David Austin English Roses—Here the roses are more like the old-fashioned bloom in that they have, in most cases, many more petals which are sometimes arranged in a quartered fashion.

About 40 years ago David Austin became concerned that the rose breeders, while creating ever more beautiful blooms, were beginning to lose the perfumes, so he started using the old fashioned, highly perfumed plants. The result is that with his 200 or so roses most have an exquisite scent.

One of his best roses is Graham Thomas, which was in 2009 inducted into the world rose ‘hall of fame’. Some of the descriptions of the scents are myrrh with a hint of lemon, old rose, spicy, fruity with a hint of citrus, so if you want to enter the best perfumed rose, a David Austin Rose might be a good bet.

Pruning roses for the show – To get blooms for the show is a bit tricky in this region but try to prune at least 10 weeks before the Show.

Feeding – Roses should be fed 3 or 4 times a year or as each flush of blooming has finished. Be sure the fertilizer is a good all round one with plenty of potash in it. Potash is essential for good bloom and healthy plants. If you buy one of the special rose foods follow the instructions on the pack and frequent doses of something like Charlie Carp or Seasol is also beneficial.

Last year The Flower Show promoted its 93rd Year in the 2024 schedule making this the 94th. We have written evidence in 1953 and 1954 with the schedule advertised in the Bairnsdale Advertiser of these being the 22nd and 23rd Shows. The advertiser is currently uploading further historical information but none is available at present after these dates for documented evidence. Thanks to Rhonda Coates for researching this for us. However, there was no show in 2020 due to Covid restrictions and we did not account for this so this year is still the 93rd Show. Opps sorry.

Handy Hints

- ✓ Irises can be ready for the flower show if you have a late variety.
- ✓ To ensure that your flowers or roses are ready for the competition by the nominated date, you should prune and feed plants at the right times.

VENUE

Makers Market

Buchan Butter Factory –

88 Orbost Buchan Road

Saturday 1st, Sunday 2nd, Monday 3rd November

10am – 4pm

Class A
